PROJECTS

CNA Insurance (US-based insurance company) | 2023
CNA - which is an internal portal for the staff of the company itself. They login with their company single-sign-on, list & manage the claims came from their customers. They can modify & commit a specific claim (while the representative is on the phone typically). Tabbing, multiple components on each tab, validations etc. are implemented. (Angular 16+, ngBootstrap, Material UI, Custom Design, SSO, Dark Mode, Apiary, GitLab/DevOps, Typescript, ESLint)

Clanwilliam Health (UK-based healthcare company) | 2022
HubRx - which is a software that automates the prescription process which starts from a doctor and ends at the patient's door (in UK) and handles all the process including the inventory management, central healthcare system synchronizations etc. (Java, Angular 13+, PrimeNG UI Kit, Typescript, ESLint, RxJS extensions, Bitbucket/Sourcetree) | hubrx.co.uk

My Data Structures & Algorithms Experiments Website | 2021
I created a static website for practicing ds/algorithms and coding browser games & some tools. | firatsahin.github.io

Recycling Company Corporate Website | 2020
I have created a renewed/modern version of the corporate website for a recycling company. | degsan.com.tr

Personal Portfolio Website of my own (Side Project) | 2019
I have made a portfolio website for myself to present my different personas & my works. | guneyfiratsahin.com

Repertory Management System for Musicians (My own Non-Profit / Side Project) | 2018 – 2020
My personal non-profit side project to help musicians easily create their musical repertories, customize the songs with different aspects & list them by sorting-filtering. I and some of my musician friends are using it. (PHP 7, CodeIgniter, MVC, REST, API, JSON, HTML/JS, AngularJS, CSS/Less, MySQL/MariaDB, Project Ownership) | myrepertuar.com

Mobile App Development Projects (Hybrid & Native) | 2018 – 2019
We developed a hybrid mobile app with Ionic framework as a helper app for our ERP. (Ionic, Angular, TypeScript)
We also developed a simple Warehouse Management app for iPad. (iOS Development, Swift 4, XCode)

Integration Projects (Shipping, Payment Gateway & Other Solution) | 2016 – 2018
We have integrated our ERP's shipping process with UPS & Fedex APIs. Also integrated our ERP's credit card payment process with Spreedly & Elavon-Converge payment services. I played an active (and sometimes leadership) role in these integration projects. (3rd party API Integration, REST, JSON, XML, Postman, Swagger)

eLAMBS Shop (ERP Integrated eCommerce Solution) | 2015 – 2018
We developed an ERP integrated Shop solution for our existing ERP customers with the team. We used ASP.NET MVC5 project for shop web sites & ASP.NET Web API2 project to serve data to all web site instances. (ASP.NET, MVC, REST API, Postman, HTML/JS, AngularJS 1.x, GitHub) | info.elambs.com/OnlineShop

eLAMBS (ERP Solution for Apparel Industry) | 2013 – 2018
We developed web version of the existing LAMBS Desktop program from the zero point with the team. I worked as a Full Stack Developer on this project many years. (ASP.NET, C#, WebService, REST, Postman, HTML/JS, jQuery, MSSQL, TFS, GitHub, Jenkins, Jira, Slack) | elambs.com

Architect Portfolio Website | 2012
I have created a manageable portfolio website for my architect friend to present his works. | olcaysaymar.com
